

Moving Dreams to Destinations

A division of Yes Logistics

A new generation express cargo company
with cutting edge technology to iron out
the wrinkles from the face of logistics
managers and supply chain heads !!

Who is Yes Logistics

Yes Logistics is a progressive initiative in inland transport providing a comprehensive B2B express delivery system that connects metros with the seamless movement of cargo across major cities in India.

Our 3 PL strategic partnership model and customised logistics solutions are structured and agreed with each client based upon their specific needs, and designed to optimize to ensure inventory accuracy, cost reduction and on-time delivery.

We are also a complete end to end logistics solution provider, with value added services like air and rail express delivery to complete our gamut of supply chain management services . We move dreams to their destinations; and we take pride in it.

We Deliver

- Express B2B cargo delivery Services
- Unmatched use of Technology
- Futuristic Warehouse & Distribution system

Built on Credibility

Yes Logistics is a leader in cargo movement, having experience of domestic transportation. Our domestic division- Yes Logistics is backed by expertise.

1. Speed- Yes Logistics is known for the fastest delivery record in the industry.
2. An logistics service provider with a gamut of services offered by us.
3. Inland transportation, Warehousing & distribution.

Central Network Management

1. Yes Logistics keeps it's priority on safety of it's material , vehicle and driver. Thus we have created a Central Network Management(CNM) team at HO, Bangalore who works 24*7*365 day monitoring key line-haul Vehicles , manages Check post, control Drivers and their behavior and running.
2. Also they monitor 2 locations where we have put CCTV centrally to ensure that. Shipments are not mishandled in any way.

Customer Service

1. 24 X 7 Customer service.
2. Integrated Frontline and Support teams.
3. Deal with all customer contacts regardless of query.
4. One point Customer Service Consultants for Key Account Management .
5. Strong interface to account management and operations .

Fleet Strength

Our solutions are backed by a guarantee only yes Logistics can provide its customers today.

We own an impeccable fleet of quality trucks and pick up vans that ranges from 1-8 tons capacity , which gives us the advantage to hand deliver packages with an extra dose of care. Our Fleet Moves with Precision.

1. GPS fitted vehicle enabling real time track and trace of the cargo movement-first time in India.
2. Dedicated trans warehouse movement done at all major hubs State of the art distribution centers.
3. Periodical performance checks and analysis conducted.
4. Strong control over pick-ups and timely delivery at competitive costing.

Strong Customer Relationships

Yes Logistics has the privilege of serving customers across industries, from FMCG to the auto industry, and retail to pharmacy and much more. What makes Yes Logistics a leader in the supply-chain management market, is our continuous efforts to build strong relationships with our customers.

Our services are backed by the end to end support we provide our customers.

1. Key account managers for each customer
2. 24/7 Customer support
3. 3 month customer satisfaction survey
4. 24 hours cargo tracking

Technology used in Services

Technology is a distinct advantage that takes Yes Logistics miles ahead of competition. Our Dedicated in house IT and remote support team's constant effort on innovation of software, Optimized cargo protection, and intensive cargo security powered by the cutting edge technology give our solutions a reliable edge over current industry standards in the domestic market.

1. Well established CRM tool for detailed shipment status, invoices and payment details.
2. Sets up multiple types of transportation rates and contracts.
3. Scan, attach and download the documents by the user without waiting.
4. Storage of documents allow the clients to access previous documents when required.
5. Upload and download pre-alerts and e-documents .
6. Transportation network analysis.
7. Strategic partner analysis.

End-to-End Coverage

Yes Logistics is powered by many offices across India, with more than 10 industry experts in charge of operations and fully functional services in all major cities in the country. And our vast portfolio with best in the industry brand names is proof enough

Extended Services Include:
